HER STORY

Kimberli Edmonds knows what it feels like to live under the weight of a lie — the quiet kind, spoken through poverty, rejection, and pain. As a first-generation college graduate who built a career as a finance executive and business owner, she didn't escape those lies. She chose forward through them. Today, through her book *Beyond the Lies* and her Choose Forward platform, she helps audiences name the false beliefs keeping them stuck — and take the next brave step toward the life they were created to live.

SIGNATURE TALKS

Beyond the Lies

Breaking free from the stories that have always kept you small

Based on her book, this keynote names and dismantles the limiting beliefs rooted in circumstance — poverty, comparison, fear, and inherited self-doubt — replacing them with a practical framework for courageous, purposeful living.

Choose Forward

One brave choice at a time

The flagship keynote. Kimberli walks audiences through the Choose Forward method: how to identify the pivotal moment of choice, silence the noise of doubt, and step forward — even when it's the hardest thing you've ever done.

From surviving to significant

Practical tools for the life you were built for

A workshop-style session with concrete strategies to move from reactive to intentional — frameworks and tools audiences can implement the moment they leave the room.

Reclaiming your value

Identity, worth, and the truth no one can take from you

A deeply personal and empowering message reminding audiences that their value was never determined by success, failure, background, appearance, title, or anyone else's opinion — and showing them exactly how to live from that truth.

WHAT YOUR AUDIENCE WALKS AWAY WITH

- Identify the lies, labels, and limiting beliefs that have been shaping their choices
- Separate their circumstances from their identity and their future
- Reclaim the value that was never theirs to earn in the first place
- Recognize fear, rejection, and failure as part of growth — not proof they should stop
- Find language to reframe setbacks as setups for something greater
- Choose one brave, specific next step forward — and leave equipped to take it
